

# REOPEN READY

FROM **PathoSans**<sup>®</sup>

## REOPEN SUCCESSFULLY & STAY OPEN

Built around the PathoSans On-Site Generation (OSG) system, the Reopen Ready program delivers protection from pathogens, supply shortage and exposure to toxic chemicals. PathoSans provides:

See efficacy claims at  
[pathosans.com/efficacy](https://pathosans.com/efficacy)

### A RELIABLE SUPPLY OF CLEANER AND DISINFECTANT

- Using just salt, water and electricity, PathoSans generators produce all the cleaner and disinfectant you need on demand, right in your facility
- You control how much cleaner and disinfectant you have on hand - not the supply chain
- Always have what you need to protect students, teachers and staff from viruses and other pathogens - when you need more, make more

### INCREASE CLEANING WITHOUT INCREASING TOXICITY

- Kill 99.99% of viruses - PathoCide<sup>®</sup> disinfectant is proven effective against a wide range of bacteria and viruses, including SARS-CoV-2\*
- PathoSans solutions contain no added fragrances, scents or VOCs, are non-irritating to skin and eyes and leave no harmful residues
- Use them throughout your facilities - even while students and teaching staff are present

### CLEAN AND DISINFECT SUSTAINABLY

- PathoSans solutions are drain and disposal friendly
- On-site generation eliminates the pollution caused by traditional chemical delivery
- Reusable spray bottles reduce chemical packaging waste

### SIMPLIFY CLEANING AND REDUCE THE CHANCE FOR ERRORS

- The two PathoSans solutions replace most other conventional cleaning products
- Using just two solutions simplifies and streamlines worker training and the cleaning process
- Clean and disinfect almost every surface in classrooms, cafeterias, restrooms and more

## LET US HELP YOU GET REOPEN READY!

### ADD VISIBILITY TO YOUR CLEANING PROTOCOLS

It's not enough just to clean and disinfect effectively. Staff, students, parents and school board members want know what's being done to keep them safe.

The PathoSans Daily Defense communication materials are part of the Reopen Ready program. It includes signage, videos, cleaning checklists and more that promote your healthier approach to cleaning. It's an easy and effective way to share the details of your disinfection program.

\*PathoCide disinfectant has been proven by an independent GLP laboratory to inactivate the SARS-CoV-2 virus in 60 seconds on a pre-cleaned surface and in 10 minutes in a one-step process when produced by on-site generator and used as directed
